

Reduced Tyre Wear Calculation

Purpose

The purpose of this questionnaire is to gather data to calculate cost and CO2 emission reductions for fleet companies based on BWFC DATA used to predict tyre wear reduction through a specialised wheel alignment and tyre pressure management service plan.

Confidentiality Statement

The information provided in this questionnaire will be kept strictly confidential by Big Wheels Truck Alignment and will only be used for the purpose of calculating cost and CO2 emission reductions for your fleet based on a 30% tyre wear reduction through our specialised wheel alignment and tyre pressure management service plan.

Your data will not be shared with any third parties without your explicit consent.

Please fill out this questionnaire and email it to sales@bigwheels.net.au or return it to your local Big Wheels Store.
